

Relationships and Families

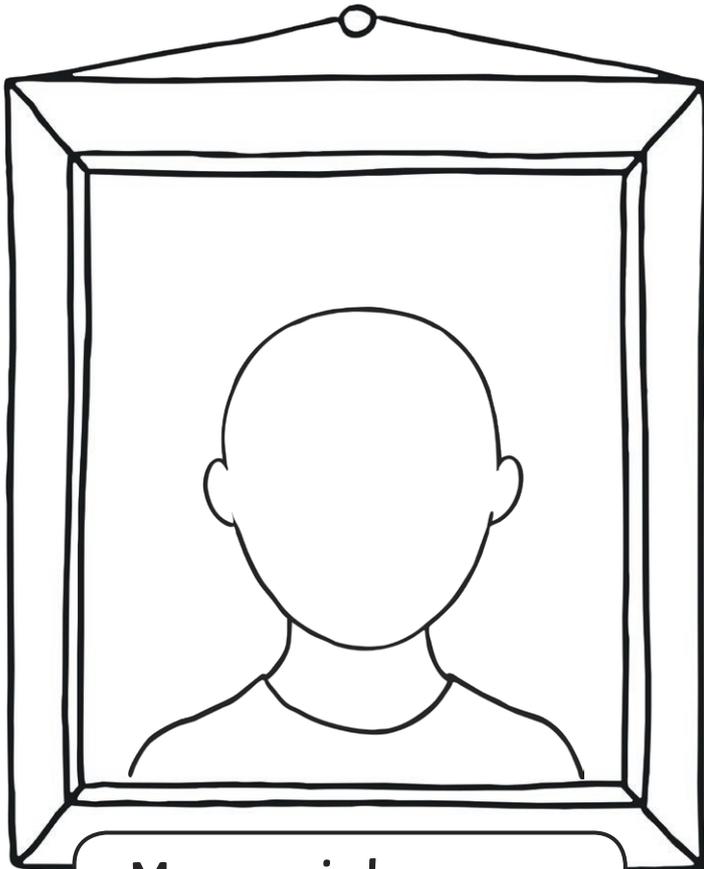

Design a poster to show people that there are many different types of family, but that they all have one thing in common – love!

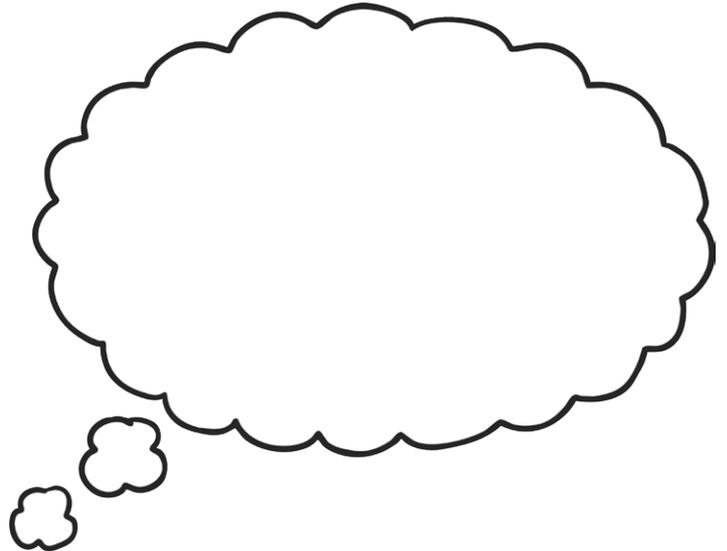

A large empty rectangular box for drawing a poster, surrounded by heart shapes on the left and right sides.

This resource is fully in line with the Learning Outcomes and Core Themes outlined in the PSHE Association [Programme of Study](#).

My Special Memories

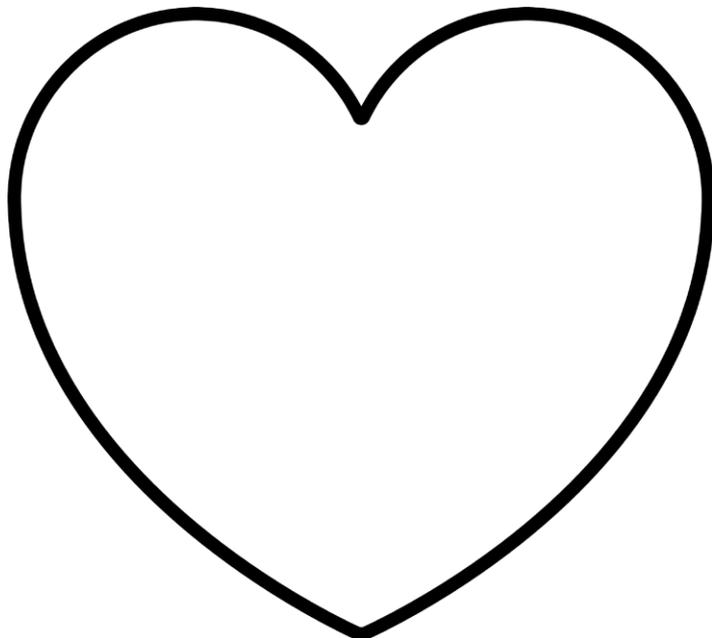

My special person.

I remember when...

I laugh when I think about...

When I think about them,
I feel...

My Special Memories

My favourite memory is...

I hope...

I miss...

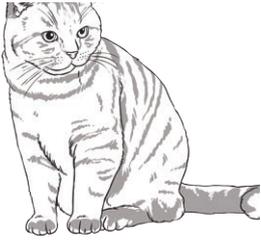

Animal Welfare Information Matching

Environment

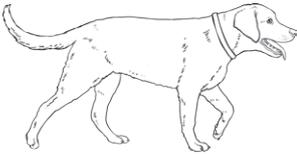

hamster

I need a cage – the largest you can possibly get. I like lots of tunnels, burrows and a training wheel.

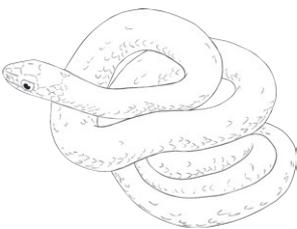

cat

I need a comfortable bed indoors. I also need a water and food bowl which I can easily access. I need toys to play with and space to walk around.

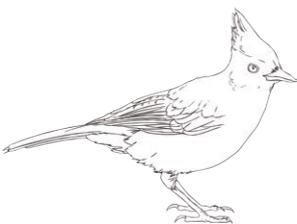

dog

I need an enclosure that matches my natural habitat – it may need rocks, sand, branches and leaves. I will need a basking light and you will need to check my enclosure is the right temperature and humidity.

snake

I need a large cage with perches and toys. My cage shouldn't be kept in the kitchen as I need to be kept away from smoke and fumes.

bird

Indoors, I will need plenty of space to roam, a resting space and a litter tray. I do like to go exploring outside too!

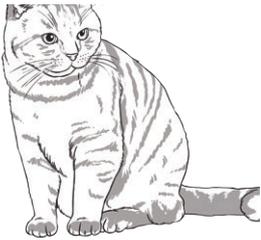

Animal Welfare Information Matching

Diet

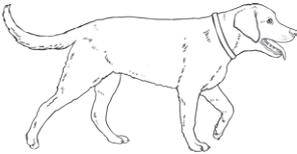

hamster

I like dried food like muesli and pellets and small pieces of fruit and vegetables, but be careful not to overfeed me!

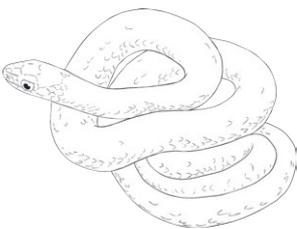

cat

Depending on my species, I could eat insects, amphibians or small mammals like mice and rats.

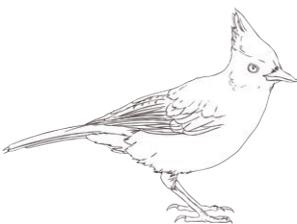

dog

I need a varied diet of seeds, pellets, fruit and vegetables to keep me healthy.

snake

Meat is an important part of my diet: it has important nutrients for me. Make sure you buy the correct type of pet food that is designed for my species.

bird

I like meat and biscuits but only buy the ones meant for me. I need lots of fresh water.

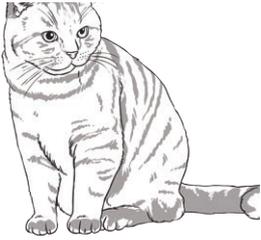

Animal Welfare Information Matching

Health

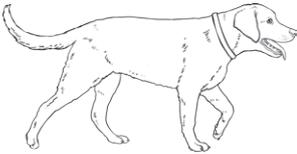

hamster

I need lots of exercise and you need to make sure I have my vaccinations and see a vet for regular check-ups.

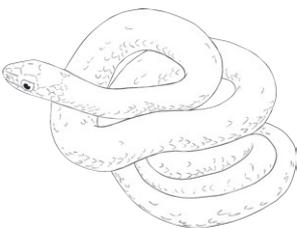

cat

I need water and the right diet, level of humidity and temperature to stay healthy.

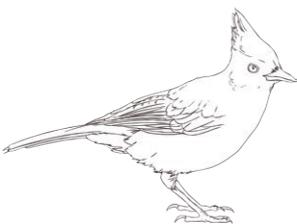

dog

You need to learn about my species to keep me healthy. I need the right food, environment, somewhere to bathe and regular check-ups with a vet.

snake

You should have me micro-chipped as I like to roam outside. You will also need to check me for fleas from time to time.

bird

I need to sleep during the day as I'm a nocturnal animal. My cage needs to be cleaned regularly. Don't overfeed me and ensure I have plenty of fresh water.

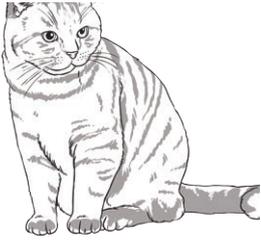

Animal Welfare Information Matching

Behaviour

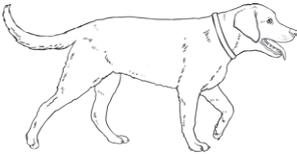

hamster

I like to be left to do my thing – mainly climbing over the equipment in my enclosure.

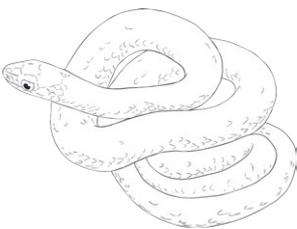

cat

I am very intelligent and need mental stimulation. I like a variety of toys in my cage to keep me interested, such as wooden sticks, bells and mirrors.

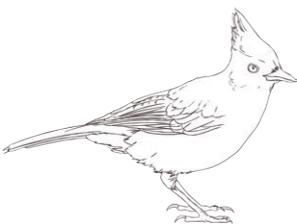

dog

I love to play, especially pretending to catch small animals. I like toy mice, string and feathers. Sometimes I might even bring you a real mouse or bird that I've caught.

snake

I like to go for walks and sometimes enjoy barking at other animals. I like to dig and play with others.

bird

I sleepy mostly during the day so please don't try to wake me or I might bite. I am very active and love new toys to keep me entertained.

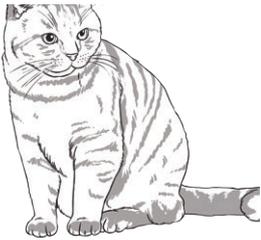

Animal Welfare Information Matching

Companionship

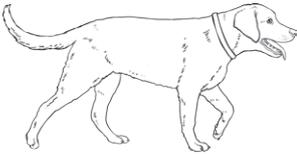

hamster

I'm used to being part of a flock so it's good if you can place my cage where I can see people. My human family and pets are my flock.

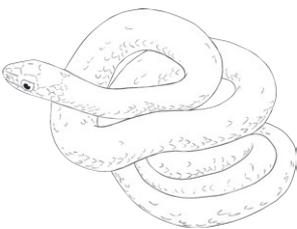

cat

I love company! I like to spend time with my human family and with other animals. I love being stroked!

dog

I like to be on my own but I can get used to being handled if you do it slowly and carefully over time.

snake

I like to be stroked and will sometimes sit on your lap and purr.

bird

Generally, I like to be left alone but I can tolerate a little handling if it's done carefully.
