

# The Croft Online Safety Group

At Croft, we have a dedicated online safety group. This group works alongside the staff at the school to ensure that your child is always safeguarded against online risks. The group meets termly to discuss current online safety provision at the school. We also look at how we can improve in the future.

## Using YOUTUBE

We know lots of our children like to use YouTube but this does come with risks. YouTube lets you watch, create and comment on videos. You can create your own YouTube account, create a music playlist, and even create your own channel, which means you'll have a public profile. YouTube also allows live streaming.

This term, we would like to share with you information about how to keep your child safe if you allow them to use this platform. The information comes from National Online Safety (NOS) who have published lots of useful guides: <https://nationalonlinesafety.com/>

**For more information scan the QR code** (using a free QR reader) or follow this link <https://nationalonlinesafety.com/resources/wake-up-wednesday/youtube-online-safety-guide/>
