

Year 2 Term 6 Newsletter

Welcome to Term 6

Welcome back for the final term of year 2!

We have a final term packed full of exciting experiences which we hope will create some memorable learning opportunities to finish off a superb academic year.

In term 6, we will be focusing our learning around another two key texts: 'The Adventures of Egg Box Dragon' and Professor Puffendorf's Secret Potions'.

Within our writing this term, we shall be producing a range of different outcomes to enable us to practice and consolidate how we embed various taught grammar features that have been previously taught. We will be writing an innovation of a story and we will also have opportunities to develop characterisation which learning within our reading lessons will support.

In Maths, we will be utilising the term to recap, revisit and consolidate previously taught learning from throughout the year. Within the lessons, we will be exploring objectives and areas that the children would benefit more exposure and practice within to help with their transition to the year 3 maths curriculum.

We will continue to link our learning to our texts where it is appropriate within the broader curriculum.

In Science, we will be taking the opportunity to recap any learning we will feel the children will benefit from as well as exploring our working scientifically statements through some practical investigations. Within our history learning, we will be learning all about Kings and Queens which we will link to our computing unit of the term that has a digital literacy focus. In computing, we will be learning to use search engines effectively to gather research to produce a final outcome. In DT, we will be designing and making our own wands using materials that we can find in our local environment. Our PSHE learning this term will be focussed around a 'Changing Me' unit.

Swimming

We do have one swimming lesson left which will take place during the first week back after half term.

SATs

We would like to say a huge well done to all of the children for their amazing effort and resilience throughout the SATs period. We are extremely proud of them and look forward to celebrating their successes this term.

Thank you for your continued support.

The Year 2 Team

Meet the team

Please email the class teacher if there is anything you wish to discuss

Class 2W
