

Homework Grid

Dear Parents/Carers

Here are some ideas of how you can support your child at home with their learning at home:

Personal, Social and Emotional Development	Play a board game with someone and take turns with rolling the dice Think about a time when you were sad... Did a special person help you to cheer up? Think of 10 ways you can be kind to others
Physical Development	Practise zipping your own coats up Continue to practise getting changed independently Practise cutting 2D shapes with scissors
Communication and Language	Tell a story to a grown up or a sibling at bed time Try telling a joke to someone – did you make them laugh? Sing a song with your family
Literacy	Write a recount of what you had for breakfast. You could draw a picture to go with it. Challenge yourself to write a sentence including capital letters, finger spaces and full stops. Draw an Easter picture and a sentence to go with it.
Mathematics	Practise writing your own addition and subtraction number sentences. See what 2D and 3D shapes you can spot in the environment – can you describe the shape? Practise your number formation from 0-20.
Understanding the World	Log into Purple Mash and complete activities on Mini Mash. Have a look outside the window and see what signs of Spring you can spot. Is the weather changing? Draw a picture of who is in your family and write their names underneath.
Expressive Arts and Design	Create a Spring collage using a variety of creative resources. See if you can tap and follow a rhythm using body movements to music. Build a tall tower using construction blocks – can you build it taller than you?
